Transient right ventricular ischemia after off-pump coronary artery bypass grafting. Transient right ventricular ischemia may occur after off-pump coronary artery bypass grafting. The effects of such ischemia on the right ventricular function during surgery and postoperatively were evaluated by measuring the echocardiographic wall motion score index in 22 patients who underwent off-pump coronary artery bypass grafting. The patients were divided into two groups: those who had coronary artery disease (n = 12) and those who had left ventricular aneurysm (n = 10). Transthoracic echocardiographic data were obtained preoperatively, at the start of surgery, and postoperatively at 0, 3, 6, and 12 hours and on the first and seventh postoperative days. The right ventricular wall motion score index significantly increased from 0.2 +/- 0.2 preoperatively to 0.5 +/- 0.3 at the start of surgery (p Q: how to remove all the header cell from collectionView in swift? I have implemented the collection view that has 5 cell. In that first cell having a button when the button pressed the cell will change into another view and I have set that view to image in this time I want to remove that view from the collection view but I cant remove it I have tried the following code but it is not working func collectionView(collectionView: UICollectionView, didSelectItemAtIndexPath indexPath: NSIndexPath) { self
