Having heard that this did not work in the past, we tried again with a fresh version of the new Astronomy Tools Action Set and the same setup as before (Elite: Dangerous, Windows 10 x64, Process Hacker, FFmpeg, Ransack, and Zoom) and found that we were able to get the same results! If you notice that your download does not work, please leave a comment below to let us know. Previous Troubleshooting Steps. Steps for fixing problems with the Astronomy Tools Actions Set 2.0. Video Tutorial on the Astronomy Tools Actions Set for Stellarium Now that you've got the stellarium-action-tools installed, you should be able to look up astrophotography in Stellarium. Here's an example of a typical Stellarium callout: I also have a listing of the steps and tools available in this set on my Reference Page. The Lunar Phase Diagram (LPD) was developed by Dr. Geraint Jones. This map shows the time of each phase of the Moon over the course of a lunar month. Different colours have been assigned to each of the phases according to the 570a42141b
