Its a very useful program for me because i have few videos in which i have some important scenes where i want to extract and save as frames to be use later for fast review. This option works very fast and easy to use. In the trial version i discovered some function not available in pro version and i need to have more free space for saving the files to disk. I consider a way of paying to save the video on my hard disk for later use without wasting space. Video to Photo works fantastic.
