## What's New in the SuperSecretary?

Sort your files the easy way SuperSecretary is nothing more than a file sorting application which can scan an entire folder, compare and filter files, placing them in separate folders, according to the selected criteria. Trying to keep things as simple as possible, SuperSecretary features a forthright interface with all the options and settings comprised in a single window. Therefore, using it shouldn't pose problems to anyone. Multiple sorting criteria and simple usage One starts by selecting the source and the destination directories and pressing the 'Scan' button. Optionally, SuperSecretary can be instructed to analyze subfolders as well. The application displays a list of the file formats it can recognize, enabling users to select the ones they want to include in the output folder. There are various criteria to choose from, namely camera model and manufacturer (for photos), date of creation or modification and file extension. SuperSecretary will create a separate folder for each criteria one picks. Once these options are configured, users just have to press the 'Go' button to start. SuperSecretary can either re-structure the original folder or leave it untouched and copy the results to the output location. Simple looks, good functionality With a straightforward look and intuitive options, SuperSecretary makes it easy for anyone to manage a large photo, video and audio collection. Its compatibility range is not limited to media files, since it can also recognize documents (TXT, XML, PDF) and other file types (CSS, JS). Howdy peoples, this blog post is about Ted Baker Leather Wallet (ted baker). This image is a image/jpeg and the resolution of this photo is 589 x 800. This post's file size is only 29 KB. If You decided to save This post to Your computer, you should Click here. You may also see more images by clicking the picture below or read more at this post: Ted Baker. What do you think about this photo? Picture has been uploaded by the author of this blog. Tell Your friend about this article: Find out how this image was created. A good way to study how images/photos was uploaded onto this blog is to view the comments left by the author of this image. If you have any questions concerning pictures, make sure to ask in the comments section of the image and they will be answered as soon as possible. Have you got any pictures to share? Submit Your Images Here! Are you a photographer? Maybe you took some good images on your camera and want to share them with the world?
