Website Investigator With Keygen Free [Latest 2022]

Website Investigator Product Key is a plain and simple software application made to help you discover the geographical location of a website or IP address. It doesn't include complex options or configuration parameters, making it accessible to all types of users. Easy setup and intuitive interface The setup operation is a quick and easy task that doesn't bring up any issues. At the first startup, Website Investigator Cracked 2022 Latest Version asks for permission to update its database, after which it's necessary to launch it again. The primary panel has a simple look and includes a world map that lists the region, country code, sub region, and assignment date of each task. Enter a website or IP address You can either enter a website or IP address to scan, and patiently wait for results to appear. These include IP addresses and aliases. Plus, you can switch to basic viewing mode if you want to hide the world map. Apart from the fact that you can minimize Website Investigator 2022 Crack to the system tray area to make it non-intrusive, there are no other noteworthy options available. Evaluation and conclusion CPU and RAM consumption was low in our tests, so the app didn't hamper system performance. Unfortunately, Website Investigator hasn't been updated for a very long time, and its database is no longer accurate. It failed in its attempts to find several countries in our tests and either didn't recognize the working Internet connection or just remained stuck at the search phase. Unless the developer decides to continue with this project, you should look for a more reliable website investigator than this app. My Account Advanced Search Free Software for PC Windows Advertisement Free Software Newsletter If you like the recommendations you'll receive, you can help us keep this service free.
