System Requirements:

Install Steam and play DotA 2 using the official Dota 2 client, or on Windows. There is no client software for Mac OS X. Optional hardware is not required, as Dota 2 does not include any 3D hardware acceleration. The original Dota 2 client included a version of Windows Media Player in order to play online and off-line LAN games. However, support for this application was removed from the Steam client in June 2012, and it is no longer required to play online and off-line LAN games. You may also want to check out
