This is the general situation, and since we are only concerned with those which are dedicated to eMule, they represent the large majority of websites of that kind. In such a setting, the best offer is usually provided by the first search engines in Google or in a similar way, and so the websites related to eMule are usually one of the first offered. This is the situation we are considering here as we dedicate this article to those who like the genre of free eMule alternatives and thus browse these websites before going to the official eMule. It is not because we like the other genres, but because we have more experience in eMule, because we have tested most of them, and because we have tried to make this
