AppGini Professional Edition.zip [HOT]

September 9, 2020 - AppGini Pro v5.84 Database Web Application Builder without programming software. Free download of the full version of AppGini for Windows. Screenshots:. AppGini Pro is a new, free web application from Jedil Soft that helps you create database web applications without coding. It works with most commercial and free databases including MySQL, SQL Server, PostgreSQL and many more. Unlike other web database applications, AppGini does not require programming software to be installed or configured.
