10:23 AM To: cc: Subject: FW: Electricity's Coming of Age Sue, The attached memo from the California
Energy Commission describes the difficulties California has had in advancing a market-based electricity
program in California. In light of California's experiences (and in light of the Bush Administration's recent
energy policy recommendations) I believe the message that we send out will be a key issue in this
presidential election. Democrats have historically been strong on policy issues and the
environment/energy issue will be a key one. I would like to send a letter to go with the attached memo.
Would you have time today to review the attached memo and draft a more detailed letter to send out
within the next few weeks? Let me know. Have a happy and safe holiday! Regards, Stephanie

The increase will impact around 2.2 million workers, an estimated 66% of workers who receive the National Minimum Wage. BBC News contacted the Department for Work and Pensions for comment but received no response. A working group set up to find a solution to the national minimum wage issue also met in 2013 but did not produce any recommendations for the government. The national minimum wage was increased in 2011 in line with the increase in the Retail Prices Index (RPI) inflation rate of 3.8%. But in 2015 the government effectively froze the rate, instead increasing the amount of National Living

Wage it pays in addition to the National Minimum Wage, and delayed any increase to the National Minimum Wage for any employers whose April 2016 pay package exceeded £10 an hour.

Château de Sainte-Brine The Château de Sainte-Brine (Brine Castle) is a neo-gothic castle in the commune of Laval in the department of Deux-Sèvres in the region of Nouvelle-Aquitaine in France. The castle was the site of the Battle of Sainte-Brine in 1207, in which Renaud de Brienne, count of Dammartin, had broken his oath of fealty to the king of France and then reneged on his oath of neutrality and given his support to the
