EXPLORE THE WORLD OF FIFA WITH BRAND NEW PLAYMATE DECIDERS With a strong focus on creating a dynamic, realistic experience of the real world, we're developing new ways to bring all the depth and variety of life-like football to the game with a few key ingredients. The first is an all-new experience, Playmate Deciders. These Deciders bring players into the game, giving them more agency and control over how they perform. Now when a new player joins your squad, they'll be able to choose a specific player attribute to make them better at. These new attributes improve the player's performance-we can see the potential players have in-game! Playmate Deciders will be coming to FIFA this year. We've also introduced the Playmaker Decider. These player attributes make them better than ever in-game, but with a twist, they have to work for the team! The team needs to create space and have the players use their individuality to give them the best chance of scoring. For example, maybe you want a player to be more involved in the build-up play and operate out wide, but they need to be a good finisher and work to support the striker. This is where the skill comes in. Players will be more intense, dedicated and aggressive while honing their individual skills, to get the best result for the team.
