Pixlr.us is one of the most popular image editors on the web. Although it's designed for designers and artists, it offers basic image editing features that cover almost all the required elements. Final Cut Pro X is a professional video editing and visual effects software used by video editors of all levels to edit, create, and sync media from the main movie editing apps such as Adobe Premiere, Apple Final Cut Pro X, Avid Media Composer, etc. Apple has released macOS 10.15 Catalina, the latest version of its operating system for Macs. Catalina comes with lots of new features and enhancements, as well as a clean and shiny new design. If you're using the more affordable Apple iPad, you're going to want to take note of a couple of things in this post. If you're an iOS user, keep reading. If you're an Android user, though, head right on over to our Mobile Guide for iPad. Software Update Update your apps. The iOS update is critical to ensure that your device is running the latest and greatest. You'll need to update Safari, Calendar, Photos, Music, and Podcasts. Update your macOS app. Catalina is not only a major update for iOS, but it's also a major release of macOS. It's unlikely that your Apple Mac hasn't received the update, but you should double check to make sure you have. What's new in Catalina The biggest new feature on macOS in Catalina is dark mode. It's been a long-awaited feature for a lot of Mac users, and it's finally here. Users can choose to turn off the OS's light theme and use the dark version instead. The update also brings Photos and iTunes in the cloud to macOS. After testing the cloud features in iOS, Apple decided to bring the feature to its own operating system. This allows users to store their photos in iCloud and have those photos available to them across all devices. You may also notice some changes to the all-new Mac Pro. It has a new design with the top square section sliced off. The Mac Pro can get quite complicated to build, especially if you want all the custom options. The new Mac Pro will be easier to build, according to Apple, and it's worth a look if you
